EDUCATION

Vivekananda Institute of Professional Studies

Bachelor of Computer Applications

Aug 2023 – 2026

Delhi

Kendriya Vidyalaya

CBSE (PCM) Class 12th

Apr 22 – Mar 23

Mumbai

PROJECTS

Rica – Flutter – Dart – PDF Processing – File System – Android | LINK [🔗](#)

Dec 2025

- Developed a Flutter-based file utility application to open, view, and manipulate multiple file types
- Implemented advanced PDF operations including viewing, merging, and password-protected document handling
- Built efficient file system access and local storage management for seamless document processing
- Designed modular tool-based navigation using named routes for scalable feature expansion
- Optimized application build size and performance for Android deployment

CurEase – MERN – Firebase – MongoDB – Machine Learning – APIs | LINK [🔗](#)

Oct 2025

- Developed a full-stack health-tech web application for intelligent and accessible healthcare
- Implemented Google API authentication with backend verification using Node.js and MongoDB
- Built symptom-based disease prediction using machine learning models for early health assessment
- Designed real-time doctor-patient live chat for secure communication
- Integrated nutrition analysis from food images and medical report management
- Built a medical reports management system for storing, viewing, and tracking health records securely

Swello – MERN – AI / ML – Firebase | {Ongoing} | LINK [🔗](#)

Sep 2025 - present

- A full-stack sports networking platform connecting players, coaches, and academies with role-based dashboards
- Built user profiles, post creation (image + text), and player discovery with dynamic search and filtering
- Designed and implemented RESTful APIs using Node.js, Express, and MongoDB for scalable data management
- Enhanced user experience with responsive UI and smooth animations using GSAP

Portfolio – React – Tailwind – GSAP – APIs | LINK [🔗](#)

Jul 2025

- Designed and developed a fully responsive personal portfolio to showcase projects, skills, and achievements
- Implemented smooth animations, transitions, and interactive UI components using React and CSS animations
- Enhanced user experience with advanced scrolling and motion effects using GSAP, Locomotive Scroll, and Swiper.js

EXPERIENCE

ACE — Core Member

October 2023 –

- Organized multiple society events, including hackathons, fostering collaboration and innovation.
- Contributed to 5+ projects in web development, app development, and programming.
- Worked on projects such as ReviewLens, To-Do, Split Money, Lost & Found, and Data Analytics.
- Developed strong skills in teamwork, problem-solving, and project execution within tech-driven environments.

Sastorm Software — Salesforce Intern

Mar 2025 – Apr 2025

- Gained hands-on exposure to Salesforce platform and CRM workflows.
- Learned core Salesforce concepts, including modules, automation, and data management.
- Developed foundational skills to implement and manage Salesforce solutions in business environments.

Technical Skills

Programming Languages: Python, Java, C, C++, SQL, MongoDB

Web Development: HTML, CSS, JavaScript, React, Angular, Node.js, Flask, PHP

Mobile Development: Flutter

Tools & Frameworks: Firebase, Git, Framer Motion, Tailwind, GSAP

CERTIFICATIONS

Full Stack Web Development in MERN

Udemy, Aug 2025

Data Structures and Algorithms in Python

Udemy, 2024

Python for Data Science

IBM, 2025

Basic of Frontend development

Udemy, 2023
